**Kookaburra's mission is clear** – to be the world's leading manufacturer of cricket equipment; inspiring every player through innovative product design. At Kookaburra, we understand the importance of performance, playing to your strengths and ultimately being the best, that's why our New 2008 Range is designed to enhance your style and ability.

For Ponting it was Power, for Shah it was Speed, Sangha' and Jayasuriya wanted Attacking Power, and Hussey always cool under pressure wanted Feel & Control.

### **KAHUNA**

Kahuna was developed to enhance the style and performance of Ricky Ponting. The Kahuna unleashes and enhances the awesome power that guided Ricky towards his selection of "ICC Player of the Year". The Kahuna Range delivers dominating power and protection.

### **BLADE**

Blade delivers the advantage of Speed. Its lightweight design was developed to aid the razor sharp reactions of the quick, accumulating player. Blessed by natural speed, The Blade gives Owais the edge at the highest level. The lightweight design delivers the speed and comfort you demand.

### **BEAST**

Some players just like to take the game head on and there is no better way than by Unleashing the Beast! The Beast range was designed to compliment the ferocious power and flamboyance of the modern day cricketer. Having hit over 300 International 6's few can destroy an opposition like Jayasuriya.

### **ICE**

The Ice Range brings a classy stylish cricketer to life. Ice delivers effortless control that's fluid in rhythm and perfect on time. Hussey (nicknamed Mr Cricket), with the gift of his Ice Bat holds an average of 79 in test cricket, its no wonder he was the fastest ever player to reach 1000 Test runs.

**Harness your strength and style with a Kookaburra**
